

CONTENTS

Disease problems in the cultivation of coriander (<i>Coriandrum sativum</i> L.) and their management leading to production of high quality pathogen free seed— M. N. Khare, S. P. Tiwari and Y. K. Sharma	1-7
Performance of coriander varieties (<i>Coriandrum sativum</i> L.) under organic management system— G. Lal, C. B. Harisha, N. K. Meena, R. D. Meena and M. K. Choudhary	8-11
Some design parametric considerations of cryogenic pre-cooler for spices grinding— P. Barnwal, K. K. Singh, P. Kumar, S. N. Saxena	12-18
Persistence of azoxystrobin in cumin crop cultivated on sandy loam soils of Rajasthan, India— P. N. Dubey, A. Saha, K. Kant, Y. K. Sharma, S. N. Saxena, B. K. Mishra and G. Lal	19-22
Effect of acute gamma radiation exposure on seed germination, survivability and seedling growth in cumin cv. Gujarat Cumin-4 — A. K. Verma, K.S. Reddy, P. Dharsekar and B. Singh	23-28
Effect of irrigation schedule and organic manures on growth and water use efficiency of fenugreek (<i>Trigonella foenum-graecum</i> L.) under middle Gujarat conditions— S. Sharma, R. H. Patel, Vaishali H. Surve and S. Kumawat	29-34
Comparative study for yield and economics of seed spices based cropping system with fruit and vegetable crops— S. S. Meena, G. Lal, R. S. Mehta, R. D. Meena, N. Kumar and G. K. Tripathi	35-39
Characterization of volatile compounds in floral honey from coriander using Gas Chromatography-Mass Spectroscopy — I. U. Khan, W. Dubey, V. Gupta	40-43
Management of blight and powdery mildew diseases of cumin by spacing and potash application— N. R. Patel, A. M. Amin and A. U. Amin	44-47
Response of <i>Cuminum cyminum</i> for various modes of micronutrients application including uptake and their availability in soil — C. B. Harisha, Y. Diwakar, O. P. Aishwath, R. Singh and H. Asangi	48-51
Evaluation of multi-purpose fenugreek variety Pusa Early Bunching (PEB) — D. B. Prajapati, A. M. Amin, S. A. Gupta, B. G. Prajapati and A. U. Amin	52-55
Population dynamics of insect pests, natural enemies and pollinators of Fenugreek (<i>Trigonella foenum-graecum</i> L.) — K. Kant, N. K. Meena, S. R. Meena, B. K. Mishra, G. Lal, M. K. Vishal and D. P. Singh	56-59
Assessment of front line demonstrations on yield enhancement of fenugreek under TSP area in pratapgarh district of Rajasthan — G. Lal, R. S. Mehta, R. S. Meena, N. K. Meena and M. L. Choudhary	60-64
Effect of weed invasion on Ramularia blight disease incidence in fennel (<i>Foeniculum vulgare</i> Mill.)— R. D. Meena, R. Singh, G. Lal, Y. K. Sharma, N. Kumar, N. K. Meena, S. S. Meena, N. L. Meena, S. Choudhary and A. K. Verma	65-67
Gujarat Dantiwada leafy coriander 1- A new variety for vegetable purpose — D. B. Prajapati, A. M. Amin, B. G. Prajapati, N. R. Patel, S. A. Gupta and A. U. Amin	68-72
Effect of inter cropping on termite management of fenugreek under North Gujarat conditions — B. G. Prajapati, N. R. Patel, D. B. Prajapati and A. M. Amin	73-78
Effect of sowing time and management practices on incidence of stem gall and seed yield of coriander (<i>Coriandrum sativum</i> L.) — P. Verma, D. S. Meena, C. Jadon and D. K. Singh	79-81
Identification of reference genes for real time PCR analysis in Dill seed (<i>Anethum sowa</i>) — S. H. Patel, H. L. Dhaduk and S. Kumar	82-85
Field evaluation of coriander genotypes against powdery mildew— A. M. Amin, N. R. Patel, B. G. Prajapati and D. G. Patel	86-88
A new record of burrowing bug, <i>Microporus nigrita</i> (F.) in Rajasthan — N. Ram and V. K. Agrawal	89-90
