## CONTENTS

### Page No.

Nigella ( <i>Nigella sativa</i> L.), a novel herb can cure many diseases: A review—G. Lal, S.S. Meena and S. Lal	1-10
Performance of fenugreek ( <i>Trigonella foenum-graecum</i> L.) genotypes for yield and yield contributing traits— P.N. Shakthi, K.C. Meena, I.S. Naruka, A. Haldar and N. Soni	11-15
Estimation of performance and residue status of some selected pesticides in cumin cultivation— P. N. Dubey, G. Lal, S.S. Meena, Y.K. Sharma and K. Kant	16-19
Technological interventions' impact of the performance of coriander through FLDs in TSP area of Banswara— G. Lal, N.K. Meena, R.S. Meena and B.S. Bhati	20-26
Market arrivals and price behaviour of coriander seeds in Rajasthan—M.D. Meena, G.Lal and S.S. Meena	27-38
Effects of in-situ composted seed spices residues on growth, yield, nutritional parameters and seasonal carbon offset by anise crop—O.P. Aishwath, R.S. Mehta and G. Lal	39-46
Effect of spacing and fertilizer levels on growth, yield and yield attributes of different ajwain ( <i>Trachyspermum ammi</i> L.) genotypes —S.S. Meena, G. Lal, M.D. Meena and S. Lal	47-51
Improved technological intervention- A boon in enhancing fenugreek yield in Western Rajasthan— M.L. Mehriya, Ramesh and H. Singh	52-55
Evaluation of fenugreek ( <i>Trigonella foenum-graecum</i> L.) genotypes under limited moisture stress conditions—S.N. Saxena, Deepak Vyas and R.K. Kakani	56-64
Interrelation between spice and chronic diseases—Deepa Indoria, B.S.Meena and R D Meena	65-72
Response of fenugreek varieties against <i>Rhizoctonia solani</i> , causing root rot — R.D. Meena, R.S. Meena, Y.K. Sharma, S.S. Meena and N.L. Meena	73-75
Determination of thermal properties of ambient and cryoground black pepper — S. Balasubramanian, R. Kumar, P. Roselin, S.N. Saxena and K.K. Singh	76-83
Management of termite in Isabgul through intercropping—B.G. Prajapati, H.B.Patel and A.U. Amin	84-88
Abiotic stress tolerance of native <i>Rhizobium meliloti</i> strain and its effect on fenugreek ( <i>Trigonella foenum-graecum</i> L.) growth under saline condition— B.K. Mishra*, Y.K. Sharma, Krishna Kant, S.N. Saxena and G. Lal	89-92
