# CONTENTS

## Page No.

Variability in morpho-physiological parameters of fenugreek genotypes— D. Vyas, R. K. Kakani, D. Agarwal, P. N. Dubey and S. N. Saxena	1-7
Variability for qualitative and quantitative characters in coriander ( <i>Coriandrum sativum</i> L.) genotypes—R. Chitra	8-13
Effects of sowing dates on plant growth and seed yield of ajmer green coriander-1 in winter season— G. Lal, R. S. Metha, R. Singh, M. K. Choudhary and S. P. Maheria	14-18
Nutrients uptake pattern in some important cultivars of fennel under typic haplustepts for their management precisely and farmgate budgeting—O.P. Aishwath	19-25
Effect of packaging materials and methods on quality characteristics of dehydrated fenugreek ( <i>Trigonella foenum graecum</i> L.) leaves during storage—P. D. Jawake, V. D. Mudgal and D. Rajpurohit	26-32
Effect of intercropping seed spices with vegetable for enhancing system profitability— R. S. Mehta, S. S. Meena and G. Lal	33-39
Rhizosphere effect in seed spices plants grown under semi-arid conditions— B. K. Mishra, P. N. Dubey, Y. K. Sharma and K. Kant	40-44
Influence of weed management practices on weed indices, yield, quality and economics of fennel— S. M. Patel, A. U. Amin, S. P. Patel and J. A. Patel	45-49
Evaluation of different insecticides and botanicals against aphids and leafhoppers infesting fenugreek— B. G. Prajapati, D. B. Prajapati and S. A. Gupta	50-57
Yield and economic feasibility of ajwain ( <i>Trachyspermum ammi</i> L.) under varying irrigation and nutrient levels— S. M. Patel and A. U. Amin	58-61
Status of some enzymatic activities in cumin field soil under the influence of propiconazole— P. N. Dubey, S. N. Saxena and B. K. Mishra	62-65
Effect of cropping sequence and nutrient management on cumin yield and fertility of soil— S. M. Patel, A. U. Amin, and H. B. Patel	66-71
Impact of front line demonstrations on productivity enhancement of cumin in arid zone— B. Singh and A. K. Sharma	72-76
Feasibility of ajwain as intercrop in cumin ( <i>Cuminum cyminum</i> L.)—S. M. Patel and A. U. Amin	77-81
Chemical management of cumin blight—N. R. Patel, A. M. Amin and A. U. Amin	82-86
Management of agronomical constraints for enhancing seed spice production in Rajasthan— L. K. Jain and H. P. Parewa	87-92
Convective drying of fenugreek ( <i>Trigonella foenum graecum</i> L.) leaves— P. D. Jawake, V. D. Mudgal and D. Rajpurohit	93-98
Agronomical, morphological and nutritive analysis of different fenugreek cultivars under cuttings management— S. A. Gupta, D. B. Prajapati, B. G. Prajapati and A. U. Amin	99-102
Effect of date of sowing on Ramularia blight of fennel and its correlation with weather parameters— V. N. Aliya, N. R. Patel*, A. M. Amin and J. Patel	103-105
